2010 and 2011

Metodološka objašnjenja

Podaci o klanju stoke i peradi dobiveni su agregiranjem podataka na osnovu uporedivih kvartalnih statističkih istraživanja koja provode entitetske statistike i Brčko distrikt BiH.

Poslovni subjekti i dijelovi poslovnih subjekata dostavljaju podatke na osnovu knjigovodstvene evidencije, dok se za obrtničke klaonice podaci dobivaju od nadležnih općinskih službi (veterinarsko – inspekcijjskih) na osnovu raspoložive evidencije.

Definicije

Bruto težina jeste težina stoke i peradi prije klanja.

Neto težina jeste težina očišćenog trupa, zaklane stoke bez kože (osim kod svinja), krvi, glave (osim kod svinja), utrobe, prednjih nogu do koljena i stražnjih nogu do skočnog zgloba (osim kod svinja). Za perad znači životinje bez glave, vrata, nogu i utrobe (spremno za kuhanje).

Randman zaklane stoke i peradi predstavlja procentni odnos težine zaklane stoke i peradi (neto težine) i težine žive stoke i peradi (bruto težine), a iskazuje se u procentima s jednom decimalom.

Notes on methodology

The data on slaughter of livestock and poultry are result of agregation of comperable the data from quarterly statistical surveys conducted by the two statistical offices on the Entity level and by the Bureau in Brcko District.

Data on legal entities and parts of legal entities are submitting data based on book-keeping, whereas for entrepreneurs avbattoirs data are given from approved municipal (veterinarian – inspection) depeartment at the basis of available evidence.

Definition

Gross weight is the weight of livestock and poultry before slaughtering.

Net weight is the weight of dressed carcass of slaughtered animals without skin (excluding pigs), blood, eviscerated and beheaded (excluding pigs), and after removal of fore ends and hind legs with knuckle (excluding pig). For poultry means animals without head, neck, legs and eviscerated (ready-to-cook).

Coefficient of utilisation of slaughtered livestock and poultry is a persentage ratio of the weight of the slaughtered cattle and poultry (net weight) and the weight of livestock and live poultry (gross weight), and it is presented in percentage caltulated to one decimale place.
