YEAR V

SARAJEVO, 05.03.2013.

NUMBER 1-1

## VOLUME INDEX OF INDUSTRIAL PRODUCTION IN BOSNIA AND HERZEGOVINA TIME SERIES RECALCULATED ON CLASSIFICATION KD BIH 2010 AND BASE YEAR 2010 PERIOD 2010-2012

From January 2013., the Agency for Statistics of BiH (Agency), in cooperation with the Federal Office for Statistics of FBiH and the Institute of Statistics of RS (entity statistical institutes), calculate and publish the data on the volume index of industrial production in accordance with new standards (classification of economic activities, the classification of the main industrial groups and nomenclature of industrial products), and the new base year 2010. The purpose of application of the new standards in BiH is to harmonize statistical data on monthly industrial production with current EU standards and regulations on short-term business statistics.

Thus, for the collection and processing of data, calculation of monthly indices on industrial production and for the publication of results for BiH and its entities, are used:

- Classification of economic activities of BiH – KD BiH 2010, based on "Statistical classification of economic activities in the European Community - NACE Rev. 2."
- Nomenclature of main industrial groups – GIG BiH, based on "Aggregate classification of Main Industrial Groupings - MIGs allocation, of EU NACE Rev. 2."
- Nomenclature of industrial products BiH – NIP BiH 2010, based on the "EU PRODCOM list 2010 - PRODUCTION COMMUNAUTAIRE"
- The base year 2010, which the EU uses to calculate the indices on a fixed basis.

In order to enable users to compare the current period data with previously published data on the index of industrial production (according to former standards and 2005. base year), the Agency and entity statistical institutes working on recalculation of time series (historical data) to the new standards and the 2010 base year.

Part of the work on recalculation of time series has been completed. In this press release Agency has the opportunity to present users recalculated data for 2012, 2011, and 2010. The recalculation of data series is in progress, back to 2006, the first year for which data are published on volume index of industrial production for the BiH.

Recalculated time series of monthly indices of industrial production to the new NACE 2010 are available to users at the level of sections and divisions of activities, as well at the level of the main industrial groups. Indices are not seasonally and for working days adjusted.

Work on the preparation of seasonal and calendar adjusted data series is underway. After work has been completed, adjusted series of industrial production indices will be presented to users.
